

Certified Staff/Special Services: Salary increases are based on negotiated contracts. In addition, the salary lines include adjustments due to retirements and new hires.

Teachers – Summer School: This account reflects the salaries for summer school teachers, paraprofessionals, and a nurse for mandated programs. The increase in the account is due to additional staffing needs for required summer programming for identified students.

Instructional Assistants: Instructional Assistants are part of the Para-educator Bargaining Unit. This account is determined by the need for specific special education programming for identified special education students.

Instructional Materials: This account reflects material needs for preschool, learning strategies, core areas instructional supports, consumables, behavioral reinforcement, assistive technology materials, as well as evaluations and test forms.

Staff Development/Training & In-service: Districts are mandated to provide professional development opportunities for all certified staff and certain mandated training for special education personnel. This account funds conferences and workshops for faculty and administration, as well as on-site training.

Professional Services for Handicapped: This account includes costs for homebound and hospital-based instruction, occupational and physical therapy, as well as required independent psychological and psychiatric evaluations. The increase in this account is due increasing needs for these services.

Tuition-Hospitals: This account reflects payments made for educational costs for students placed in psychiatric care facilities.

Tuitions to CT Districts/Tuitions to Non-Public Schools: These accounts reflect payments made for schooling children outside Clinton Public Schools. In the back of this budget book is an appendix listing the most recent projected placements and costs included in this year's budget. Increases in Tuition are based on an increase in students in need of specialized programming beyond what the district can provide.

Transportation Special Education – In Town: This figure is budgeted per the transportation contract, including the need for bus aides and use of wheelchair buses. This year's account decrease is due to a change in the number of buses needed in town for special education purposes.

Transportation Special Education – Out-Of-Town: This account reflects the cost of transporting students to out-of-district placements, and to cover transportation for homeless students as required by law. The increase is due to an increase in the number of student outplacements.
